

Guide for KSDS Parents:

If you have questions related to Covid issues (potential symptoms, testing, exposure, etc.), contact the nurses and we will inform you of what steps to follow.

- Donna Friedman & Monica Stewart - nurses@ksds.edu
- You are also welcome to call at (410)486-8640 Ext. 247; please note that the nurses are not in the office until 8:00am.

If your child is going to be absent from school for any COVID-related reason, please:

1) Parents should email the nurses at nurses@ksds.edu that your child will be absent and the reason for the absence.

- COVID-related absences will be noted as excused absences, and will NOT appear in the tally of absences on your child's report card.

2) Notifying teachers:

- If a Middle School student will be absent, have your Middle School child also notify their teachers directly of their absence and ask for any work to be made up.
- If a Lower School student will be absent, parents should also email their lower school child's teachers directly about the absence and ask about any work to be made up.
- If your absent child has a sibling at GECC, parents should also notify Michelle Gold at mgold@chizukamuno.org in addition to the KSDS nurses.

Thank you for helping to make this a smooth and successful school year.
